

Design Beyond Limits

ABOUT Us

H&M Manufacturing is a Ghanaian indigenous Limited Liability company, specialized in Interior Design, Furniture Manufacturing, finishing solutions and Interior décor.

With over twelve (12) years experience, we are one of the most skilled furniture manufacturing companies in Ghana.

We have a state of the art factory located in Accra, where we manufacture all types of furniture and innovative interior finishing works such as Wardrobes, Beds, TV Units, Wall Cladding, Kitchens, Centre Tables, Sofas, Office Desks, complete office set ups and many more.

Company Ethos

With attention to detail, we listen to the needs and demands of each client, no matter how big or small and strive to bring the vision of the client into reality. Our experienced team of architects, interior designers, upholsterers, carpenters and installers is the best when it comes to innovative ideas and creativity and each project completed by our team is executed with perfection.

Vision

To be the leading manufacturer of made in Ghana furniture and to be the preferred furniture partner for clients in the housing, real estate and hospitality industry.

Mission

To delight our customers by offering personalized designs, quality furniture and interior solutions with excellent customer service - all while promoting made in Ghana furniture and filling the gap in the local furniture industry.

Profile

H&M Manufacturing Ltd was established in 2018 and has extensive experience in supplying raw materials to the furniture industry as well as manufacturing furniture suited especially for the African climate.

Whether creating a simple furniture item for an individual or developing a complete concept for an estate, apartment complex, mall, or hotel, our company has a full team ready to execute any project.

Our services range from concept design to sourcing the right materials for each project, followed by manufacturing and installing the furniture according to the client's requirements.

We have a complete team of architects, interior designers, upholsterers, carpenters, sprayers, painters, welders and installers who design and build each project according to our clients' vision.

Each project is executed with great attention to detail, both during the design phase and throughout execution. While we strive for quality and perfection, we also remain committed to cost efficiency.

We aim to deliver high-quality products and services within the agreed time frame while respecting the client's budget. We offer ongoing after-sales services whenever needed.

At H&M, client relationships extend beyond project completion. We want our clients to feel part of the H&M family and to consider us their first and best choice for all their furniture and interior design needs.

Quality Assurance

Quality is of immense importance to the entire team at H&M Manufacturing and is one of the cornerstones of our company.

Selecting the best raw materials and finishing products along with using top-grade machinery is only the beginning of our successful production process. Even more important is having a highly qualified and efficient team.

We ensure that all our design and production staff undergo continuous training to stay up to date with the latest production and manufacturing techniques and trends.

Our machinery is regularly serviced to meet required standards, ensuring not only optimal production performance but also the health and safety of our staff.

All raw materials are carefully selected. Our quality control team inspects materials at various factories worldwide before they are shipped to our facility.

The final stage of our production process, before delivering goods to the client, is a thorough quality control review carried out by our dedicated team. Any fault no matter how small must be corrected before leaving our factory.

Raw Material Selection

Selecting the right raw materials is a critical foundation of quality in the furniture industry. Manufacturers must evaluate materials for durability, appearance, sustainability, and cost-effectiveness to ensure they meet both functional and aesthetic standards. This process often involves sourcing wood, hardware, fabric and finishing materials from trusted global suppliers who can guarantee consistency and compliance with industry regulations. By carefully choosing high-grade raw materials, furniture producers can enhance product longevity, improve customer satisfaction, and maintain a competitive edge in the market.

At H&M Manufacturing Ltd, we believe that creating a high-quality product begins with selecting the finest materials from a diverse network of suppliers around the world. In our quest to achieve quality, durability and aesthetic values, we have carefully selected a list of global suppliers for our raw materials.

MELAMINE FACED CHIPBOARD (MFC) AND CDF

Our preferred choice of boards for our stunning designs are MFC. H&M Manufacturing is proud to serve as the sole representative in West Africa for Swiss Krono Wood, a globally renowned manufacturer of wood panels such as MDF, MFC, and CDF, headquartered in Switzerland.

ACCESSORIES

After careful consideration of the many options available globally for furniture accessories we chose to be the representative of Hettich GmbH, the world's leading supplier of premium accessories for the furniture industry.

FABRIC

To meet the needs for quality fabrics for our upholstered furniture procurement team frequently travels internationally to source materials for our production needs, with Asia, Turkey, and Europe being our preferred regions for our fabric selections

HARDWOOD

Hardwood from Ghana is highly regarded in the furniture industry for its strength, stability, and rich natural beauty. Species such as mahogany, odum (iroko), wawa, and sapele are known for their durability and distinctive grain patterns, making them ideal for producing premium furniture and interior finishes. Ghana's hardwood is sourced from well-managed forests under strict regulatory frameworks designed to promote sustainability and responsible harvesting. By choosing hardwood from Ghana, both H&M Manufacturing Ltd and our clients benefit from reliable material quality, excellent workability, and a finish that enhances the elegance and longevity of every piece.

Environmental Sustainability Policy

At H&M Manufacturing, we are committed to operating responsibly and reducing the environmental impact of our business activities. As a manufacturer, we recognize that our operations ranging from material sourcing to production, packaging, and transportation have a direct influence on the environment. To address this, we have established clear objectives and practices that guide our commitment to sustainability.

Our Commitments

We have implemented an Environmental Sustainability Policy that focuses on the following key principles:

1. Compliance with Environmental Laws

We adhere to all national environmental regulations and laws governing our operations.

2. Prevention of Pollution

We continuously improve our working standards and processes to prevent pollution and reduce waste.

3. Employee Education & Training

We provide ongoing training and development to ensure employees understand and support our environmental objectives.

4. Environmental Performance Monitoring

We regularly monitor, measure, and review our environmental performance to ensure continual improvement.

5. Sustainable Supply Chain Practices

We insist that our suppliers follow environmental standards aligned with our own sustainability goals.

6. Energy Efficiency

We closely monitor and manage energy consumption throughout our production processes.

7. Use of Recyclable Materials

We prioritize recyclable and environmentally friendly packaging materials designed to minimize waste.

8. Responsible Waste Management

We work under a formal agreement with a certified waste management company to ensure proper disposal and recycling.

9. Reduction of Hazardous Substances

We avoid the use of hazardous materials whenever possible, prioritizing safer and more sustainable alternatives.

Health & Safety

H&M Manufacturing Ltd is committed to providing and maintaining a safe, healthy, and compliant working environment for all employees, contractors, visitors, and other stakeholders. The company places the highest priority on preventing workplace injuries, illnesses, and hazards, and ensuring that all operations are conducted in accordance with relevant health, safety, and environmental standards.

The objectives of our Health and Safety Policy are to:

- Prevent workplace accidents, injuries, and illnesses.
- Promote a culture of safety awareness and responsibility at all levels of the organization.
- Ensure compliance with statutory health and safety requirements.
- Maintain effective emergency preparedness and response capabilities.
- Continually improve our health and safety performance.

We aim to achieve this by

- Providing resources to support health and safety initiatives.
- Ensuring that supervisors and staff receive appropriate training.

- Conducting regular workplace inspections and risk assessments.
- Implementing controls to eliminate or minimize risks.
- Ensuring compliance with Covid-19 and other public health regulations

H&M Manufacturing Ltd provides regular training to ensure that all employees:

- Understand workplace hazards and safe work procedures.
- Are competent in the use of machinery and tools.
- Are trained in first aid and emergency response where applicable.

H&M Manufacturing Ltd conducts frequent risk assessments to identify potential hazards. Upon identification:

- Risks are recorded, evaluated, and prioritized.
- Control measures are implemented immediately.
- Follow-ups are performed to verify the effectiveness of corrective actions

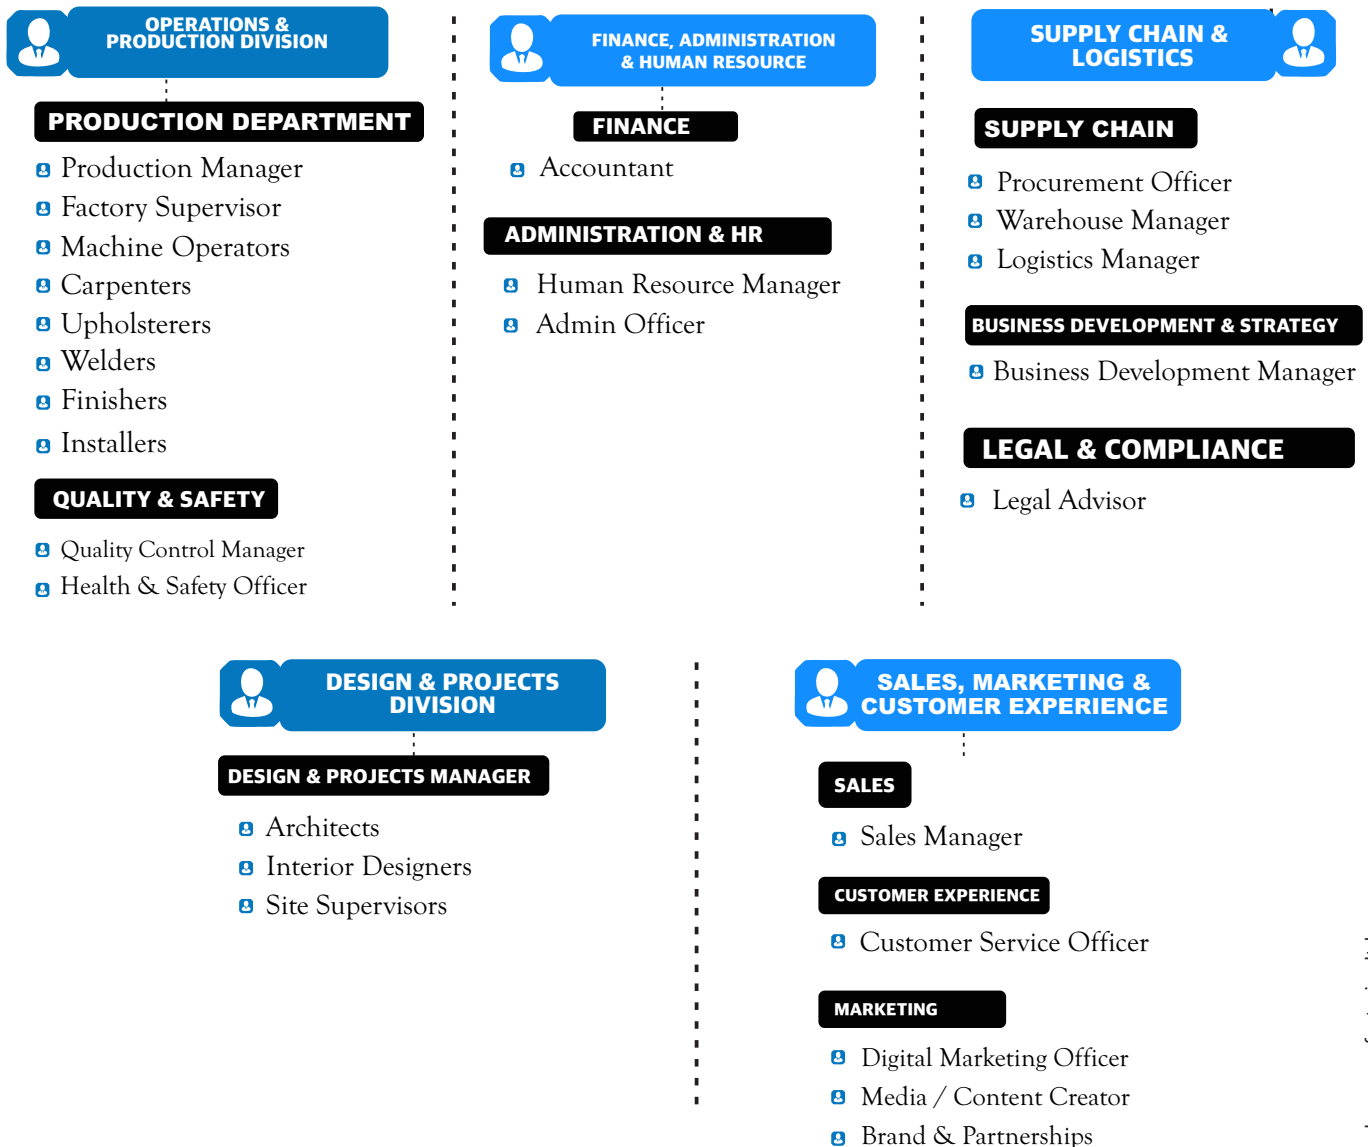

GROUP STRUCTURE

BOARD OF DIRECTORS

MANAGING DIRECTOR

KEY SUPPLIERS

SWISS KRONO

SWISS KRONO Group, active globally in engineered wood products. The company was founded in 1966 in Menznau, in the Lucerne region

The headquarters of the group is located in Lucerne, Switzerland

SWISS KRONO specializes in wood-based materials and engineered wood products primarily from sustainably sourced wood. Their product categories include:

- Interiors / Furniture & Decorative Wood Materials: used in interior design, furniture manufacturing, and shop fitting.
- Flooring: laminate floors and other wood-based floor products. Building Materials such as oriented strand board (OSB) and engineered wood panels for construction / renovation.

Their wood products from decorative boards to structural panels and flooring are exported worldwide. The Swiss plant alone serves more than 90 countries. Sustainability is central to SWISS KRONO's philosophy and operations. Some of their key environmental commitments:

- Their products are made from renewable raw material: wood, sourced from sustainably managed forests often Swiss wood when possible.
- They maintain an environmental management system, certified under ISO 14001, to guide their practices.
- Their production seeks eco-efficiency: minimizing raw-material waste, optimizing energy use, reusing byproducts (like sawdust), and using wood as a CO₂ reservoir thus reducing carbon emissions.
- Their flooring and wood products are often available with sustainability certifications: e.g. Forest Stewardship Council (FSC®), PEFC, and compliance with relevant environmental product declarations helping ensure responsible forest management and product safety.

SWISS KRONO remains the only Swiss manufacturer of decorative wood-based materials for interiors, floors, and furniture among its peers "Made in Switzerland" remains a key quality mark.

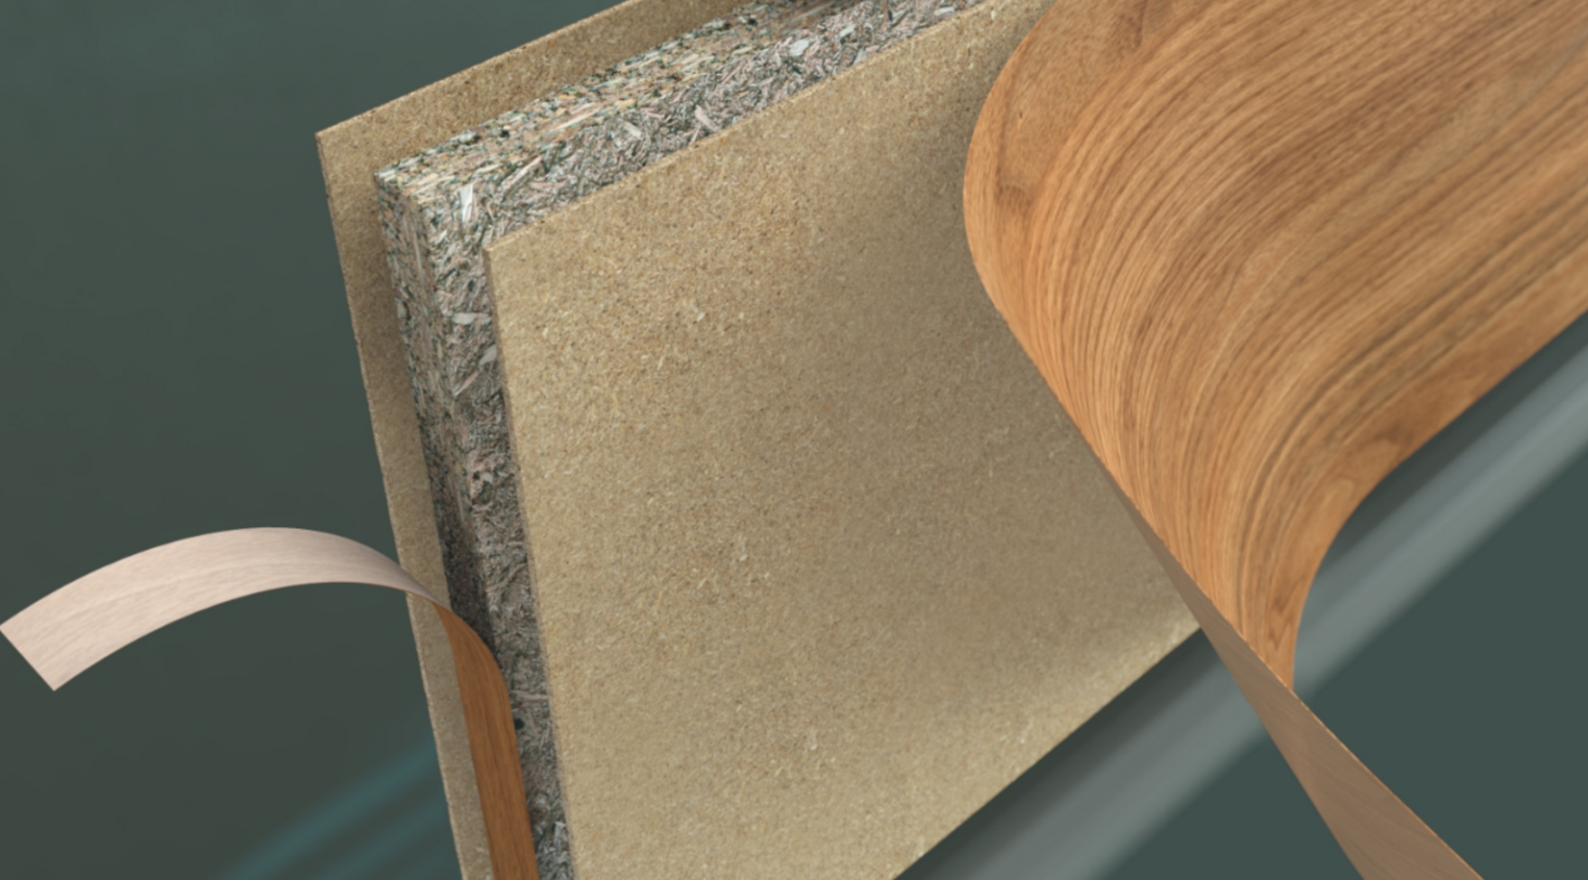

- Hettich is a German, 100% family-owned company specializing in furniture fittings and hardware.
- The company was founded in 1888 with its Headquarters located in Kirchlingern, in the East Westphalia region of Germany a traditional center of furniture manufacturing.

Hettich provides a wide range of hardware and fittings used in furniture manufacturing, including:

- Hinges (concealed hinges, hinges for doors, etc.)
- Drawer systems and drawer runners / slides (for cabinets, wardrobes, kitchens, etc.)

- Slide, folding and sliding-door fittings (for wardrobes, cupboards, special furniture)
- Other technical fittings and hardware "furniture-technology" solutions combining design, functionality and engineering.

Through the decades, Hettich has kept innovating: today they offer highly engineered fittings including solutions for sliding/folding doors, integrated drawer systems, and more. Hettich doesn't just sell hardware they emphasize sustainability, social responsibility and long-term quality.

SWISS KRONO MFC

Swiss Krono MFC boards are high-quality, environmentally responsible panels designed for modern interiors. Made from Swiss Krono wood, they support healthy living spaces and creative design solutions. Produced with next-generation bio-based adhesives, they ensure excellent indoor air quality.

These boards are safe, durable, and sustainable:

- Composed of at least 98% natural materials
- Emissions comparable to natural wood
- FSC or PEFC certified

Available in a wide selection of colors and finishes, Swiss Krono MFC boards offer flexibility for standard and custom applications. Their smooth, scratch-resistant surface ensures long-lasting performance with minimal maintenance, making them ideal for both residential and commercial use.

Advantages of MFC

- Decorative variety
- Easy to clean
- Scratch resistant
- Hygienic
- Anti bacterial

ELEGANT BAR & SEAMLESS WALL CLADDING

This design brings together refined simplicity and modern functionality. The bar features a clean and elegant layout, highlighted by a mirrored backdrop and glass shelves that create depth and sophistication. At the center, a quartz island with an integrated sink adds both practicality and a polished finish to the space. Complementing the bar is a sleek wall cladding crafted with Lava Grey and Black PE finishes. Designed with subtle vertical strips and a concealed door, the wall maintains a seamless and contemporary appearance while adding a distinctive architectural detail to the interior.

DAHOMA POOLSIDE DECK

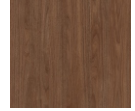

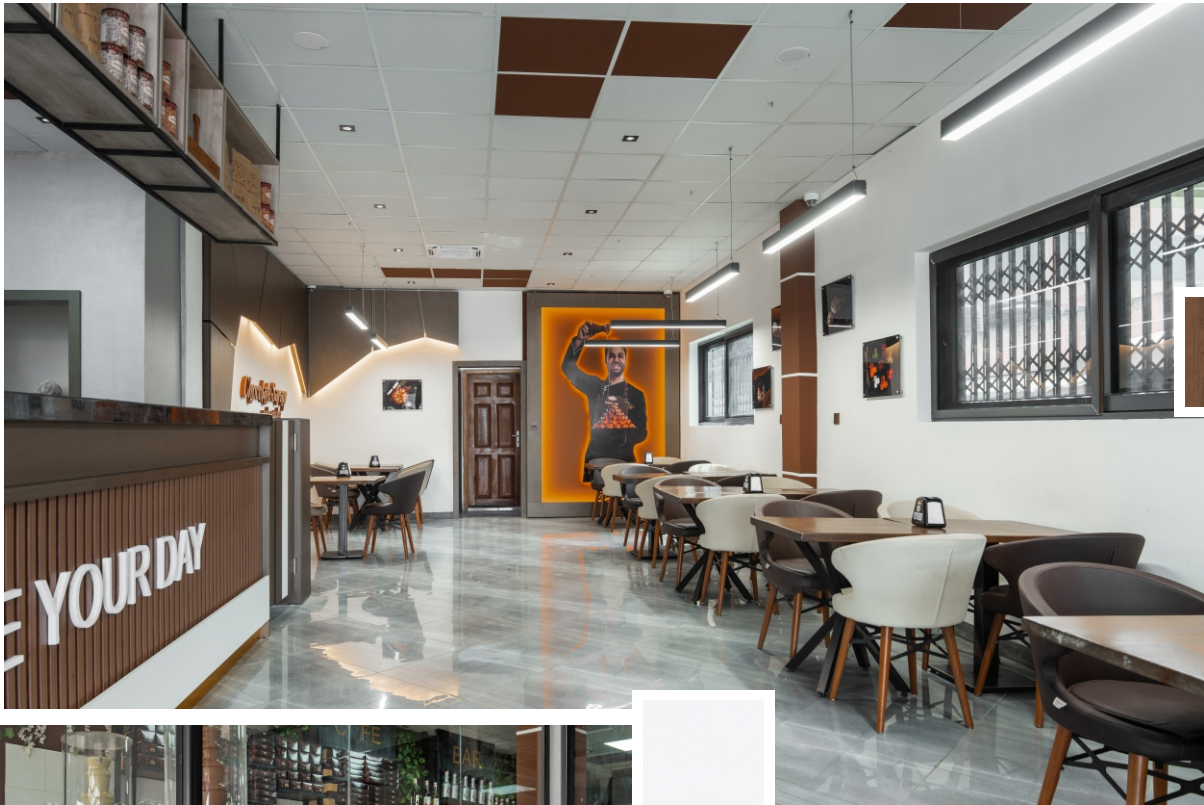

Crafted from solid Dahoma wood, this elegant poolside decking brings warmth and natural beauty to the outdoor space. The rich wood tones extend to the window frames, creating a harmonious and refined design throughout the area. Subtle lighting enhances the deck at night, highlighting the texture of the wood and elevating the overall poolside ambiance with a touch of timeless sophistication.

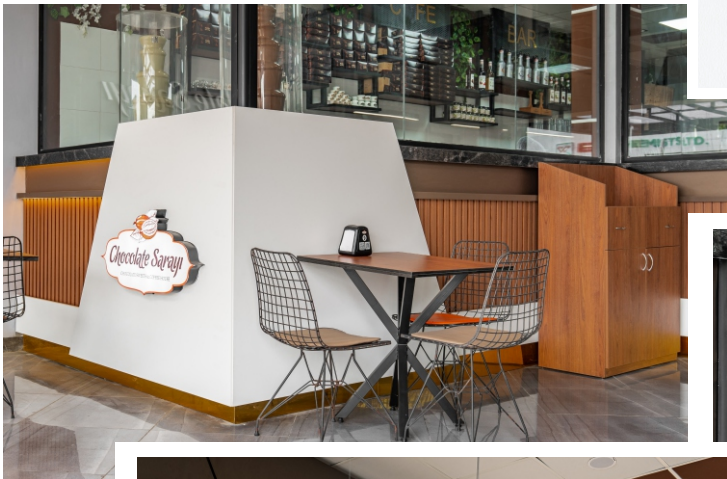

RHYTHM CONSOLE

Designed to transform a simple corridor into a statement space, this elegant console features a distinctive heartbeat-inspired wall design paired with a refined mirror. Crafted with MDF and natural veneer finishing, the piece showcases clean lines and refined craftsmanship. Warm integrated lighting enhances the textures and creates a welcoming glow, turning the corridor into a sophisticated design feature within the home.

2ND EDITION

MOST INFLUENTIAL **mipa** PEOPLE AWARDS

THIS CITATION IS PROUDLY PRESENTED TO

MR. CHARLES HANNA

CHIEF EXECUTIVE OFFICER, H&M MANUFACTURING LTD.

Your influence on the growth and development of Ghana as a nation and on the socio- economic evolution of the people of its various communities has greatly improved the quality of life and their standing in the emergent global village. Not only have you served as a role model but you have also created the opportunity for millions of Ghanaians to become the best they can be.
